**A CONVERSATION KIT ON**

**MUSIC**

# Conversation Guide

## Music, ep. 1

### Episode 1 summary

- Every culture and every generation on the earth creates and listens to music. Music is humanity's companion in the highs and lows of our lives.
- Music is a wildly complex intersection of sound, physics, art, and creativity that connects deeply with our hearts and minds.
- Just like God created order from chaos at the foundations of the world, it is part of our nature to create music out of the chaos of sound.

1. Order from Chaos
2. The Law of Life
3. The Sound of Change
4. A Joyful Sound

### Discussion questions

**01** Do you have a specific type of music you listen to when you need to focus, say, on work or school? Why do you think that music helps you focus?

**02** Were you aware of some of the theory and physics behind music? Does it any of it surprise you? Why do you think the human heart and mind enjoys music so much?

**03** Are there any spaces where you can see God creating order out of chaos right now? Are there any spaces where you feel like *you* could create order out of chaos?

### Diving deeper

**Read Genesis 1:26-31.** In this section of scripture, we see that man and woman are made in God's image, but also that God gives mankind a level of responsibility over creation. Spend some time processing the ways you are responsible in the world around you. Are there ways you could take better care of the world around you? Is there a place where you feel like you do a good job?
